Pakistan Flooding

August 2010

**PRESBYTERIAN
DISASTER ASSISTANCE**

The country of Pakistan has suffered numerous natural and human-caused disasters over the last few years. A powerful earthquake in 2008 left thousands homeless at the onset of winter. In 2009, millions of people were displaced by conflict between the Pakistan military and militants. Now 2010 — a year that was supposed to be a time of new beginnings and a continuing road to recovery following previous disasters — has turned into a record-breaking year for flood destruction throughout the entire country, with more than 1,400 people dead and more than 1.5 million displaced.

Presbyterian Disaster Assistance (PDA) is working with our ecumenical partners to help meet emergency needs and is providing food packages, shelter materials, and non-food essentials. Emergency health services are also being provided.

How Can We Respond?

Give — to support the relief and recovery ministry.

Gifts should be designated for DR000038, Pakistan.

Act — stay informed through the PDA web site www.pcusa.org/pda and by joining the PDA Rapid Information Network (PDA-RIN) for reports via email. Subscribe at www.pcusa.org/subscriptions/

Pray — for those who have lost family or livelihood, those who cannot yet return home, and those who are working tirelessly to provide rescue, humanitarian aid, and spiritual and psychological support.

OUT OF CHAOS, HOPE

They're seeking dry ground.
Let's help them find hope.
